STORAGE AND HANDLING

Storage and Shelf Life	The product may be stored for 24 months from the date of manufacture in the original, unopened package at frozen temperature (store below -15°C). The 'best use before' date is printed on the label. Alternatively, the oil may be stored in the original, unopened container for up 6 months in a refrigerator (2-8°C) or 1 month in at room temperature (25°C). For extended storage and for best sensory performance, frozen storage is recommended.
Stability	The product is a natural product and due to the nature of the oil, some variability in the clarity of the product has been observed. Upon prolonged storage at room temperature or refrigerated temperature conditions, some semi-solid material may appear in the oil. This is not expected to negatively impact the quality of the product, but the oil should be well mixed to re-suspend this material prior to use.
